THIRD SESSION, ELEVENTH PARLIAMENT, 1910-11.

---

---

Thursday, 17th November, 1910.

This being the day on which Parliament is convoked by Proclamation (hereunto annexed) for the Despatch of Business, and the Members of the House being assembled.

PRAYERS.

Mr. Speaker communicated to the House the following letter which he had received:—

OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA,  
OTTAWA, 15th November, 1910.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament on Thursday, the 17th of November, at Three o'Clock, P.M.

I have the honour to be, Sir,

Your obedient servant,

D. O. MALCOLM,  
*Governor General's Secretary.*

The Honourable,  
The Speaker of the House of Commons.  
5321—1

A Message was delivered by Captain Ernest John Chambers, Gentleman Usher of the Black Rod:—

Mr. Speaker,

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Senate Chamber.

Accordingly, Mr. Speaker, with the House, went up to the Senate Chamber, and, having returned,

Mr. Speaker informed the House that, during the Recess, he had received a communication notifying him that a vacancy had occurred in the representation in the House of Commons, for the Electoral District of Drummond and Arthabaska, consequent upon Louis Lavergne, Esquire, the sitting Member therefor, having been summoned to the Senate.

And that he had issued his Warrant to the Clerk of the Crown in Chancery to make out a new Writ of Election for the said Electoral District.

DOMINION OF CANADA,

To Wit:

House of Commons.

To the Honourable

The Speaker of the House of Commons:

We, the undersigned, hereby give Notice that a vacancy hath occurred in the representation in the House of Commons, for the Electoral District of Drummond and Arthabaska, in the Province of Quebec, consequent upon Louis Lavergne, Esquire, the Sitting Member therefor, having been summoned to the Senate.

Given under Our Hands and Seals, at the City of Ottawa, this 13th day of October, 1910.

WILFRID LAURIER, [L.S.]  
*Member for the Electoral District of Quebec East.*

SYDNEY FISHER, [L.S.]  
*Member for the Electoral District of Brome.*

Ordered, That Sir Wilfrid Laurier have leave to bring in a Bill respecting the Administration of the Oaths of Office.

He accordingly presented the said Bill to the House, and the same was received and read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General, this day, in the Senate chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House, as followeth:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

When I prorogued Parliament in the month of May last, I was about completing the term usually allotted to the office of Governor General, but, it has pleased His Majesty King George V. to continue me as His representative in Canada, and therefore it is my great pleasure again to greet you at the opening of this new session.

I meet you under the shadow of the calamity which has befallen this country and the whole British Empire, in the demise of our beloved sovereign, King Edward VII.

His death is mourned, not only by his subjects the world over, but also by all civilized nations who had learned to appreciate the many gifts and qualities which had earned for him the name of Peacemaker, by which he will be known in history.

It is with great pleasure that I congratulate you on the ever-growing prosperity of this favoured land. Trade and Commerce are advancing in all directions with rapid strides. The total volume of imports and exports far exceeds all previous records, and the growth of our industries and internal trade keeps pace with the development of our external commerce.

Whilst in certain of the western Provinces the crops did not realize the sanguine expectations which had been formed in the early spring, yet the total yield was reasonably satisfactory, and the eastern Provinces in this regard have been more than ordinarily blessed. The conditions now existing over the whole country conclusively demonstrate that even with lesser production at some points, the vastness and variety of our resources ensure at all times a high degree of progress for the whole country.

Negotiations for the acquisition from the Admiralty of the two cruisers *Niobe* and *Rainbow* have been carried on with His Majesty's Government, and the two ships have now arrived and are stationed in Canadian waters, in pursuance of the policy adopted last session for the creation of a naval service.

The Hague Tribunal, to which was referred the controversy between Great Britain and the United States, with reference to fisheries in Canadian and Newfoundland waters, has rendered a decision which has been accepted by all parties interested as a fair and equitable adjustment of this long-pending dispute. The result is gratifying, inasmuch as it will tend not only to promote peace and friendship between us and our neighbours, but also, to further the practice of settling international questions by means of arbitration.

Marked progress is being made in the construction of the National Transcontinental Railway, and a large quantity of grain is this season finding an outlet from the West to the Great Lakes over this new highway. It is hoped that ere long a satisfactory arrangement can be made for the operation of the finished portions of the line, pending the completion of the road from Moncton to Winnipeg.

The construction of a line of railway to Hudson Bay, which has occupied the attention of the people for many years, has assumed practical shape. Already a contract has been awarded for the construction of a bridge forming part of this railway, across the Saskatchewan river, at Pas Mission, and the work is now in progress. During the present session, a measure will be laid before you providing for the prosecution and completion of this work with all possible speed. The connection of the Great West with the Eastern portions of Canada, and also with the overseas markets, by this new rail and ocean route, will not only open up a new section of Canada, but will greatly assist in the development of trade, and thus benefit both producers and consumers.

The construction of the bridge across the St. Lawrence river at Quebec, the largest work of its kind ever undertaken, has been receiving the careful attention of my Government, and the utmost care is being observed so that success may be assured. The substructure is now under contract. Tenders for the erection of the superstructure have been received from four responsible companies, and are now being considered.

It is expected that the contract will shortly be awarded and the work pushed forward to completion.

While recognizing the importance of the Canadian home trade and the great value of the market for our staples in the United Kingdom, my Government feel that they should avail themselves of every opportunity to promote friendly commercial relations with the British Colonies and foreign countries, so that our surplus products may be admitted into the markets of those countries on the most favourable terms.

In pursuance of this policy, commercial arrangements, involving reductions of our Customs duties, have been made with Italy and Belgium and a reduced schedule of duties has been granted to the Netherlands.

The desirability of more equitable tariff arrangements between the United States and Canada has long been felt on this side of the border. The commercial policy of the Republic has not hitherto favoured imports from Canada. We have bought largely from the United States, but they have bought much less from us in return. It is gratifying to find that a more liberal policy is now favoured by the neighbouring country, and that the Government at Washington express a desire to establish better trade relations with the Dominion. Following the negotiations which took place some months ago between the President of the United States and my Government, the results of which were at the time communicated to Parliament, a further conference between representatives of the two countries has been held at Ottawa. While no conclusions have been reached, and no formal proposals made, the free discussion of the subject that has taken place encourages my Government to hope that at an early day, without any sacrifice of Canada's interests, an arrangement may be made which will admit many of the products of the Dominion into the United States on satisfactory terms.

A very careful enquiry into the conditions of trade and transportation between the British West Indies and Canada, has been held by a Royal Commission, appointed by His Late Majesty, including among its members two of my Ministers. The report of the Commission will be laid before you.

In view of the Imperial Conference on Copyright, at which unanimous conclusions were reached in favour of harmonious legislation on this subject throughout the Empire, a Bill to revise and consolidate the law on copyright will be submitted to you.

A measure will be submitted to you in furtherance of the provisions of the treaty recently passed with the United States on the subject of contiguous waters.

Bills will also be introduced respecting banks and banking, terminal elevators at the head of Lake Superior; and with regard to the investigation and betterment of Industrial and Labour conditions and other subjects.

*Gentlemen of the House of Commons:*

The accounts of the last year will be laid before you.

The estimates for the coming fiscal year will be submitted for your approval at an early date.

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

These important subjects and all matters affecting the public interest I commend to your best consideration and pray that Divine Providence may guide your deliberations.

On motion of Sir Wilfrid Laurier, seconded by Mr. Paterson.

Ordered, That the Speech of His Excellency the Governor General to both Houses of Parliament of the Dominion of Canada, be taken into consideration on Monday next, and that it be the first Order of the Day on that day and every subsequent day until disposed of.

On motion of Sir Wilfrid Laurier, seconded by Mr. Paterson.

Resolved, That a Special Committee be appointed to prepare and report, with all convenient speed, Lists of Members to compose the Select Standing Committees of this House under Rule 10, said Committee to be composed of Sir Wilfrid Laurier, and Messieurs Borden, Paterson, Fisher, Haggart (Lanark), Pardee and Perley, and that portion of Rule 10 limiting the number of members of the said Committee be suspended in relation thereto.

Mr. Speaker laid before the House,—The Report of the Joint Librarians of Parliament, which is as follows:—

### REPORT OF THE LIBRARIANS FOR THE YEAR 1910.

*To the House of Commons:—*

The Joint Librarians of the Library of Parliament have the honour to report as follows for the year 1910:—

The question of improved trade relations with the United States, having been much discussed during the recess, the Librarians have reprinted in the annual catalogue, with additions to date, the list of references to the subject of Reciprocity printed previously in 1894. This list has been compiled with much care, and Members are reminded that it would be well to preserve it for future use, as in the nature of things it will go out of print and will shortly be unobtainable. The catalogue containing it will be distributed at an early date.

All the current literature of the day has been procured in as full a measure as the resources of the Library will permit. These resources are more heavily taxed now than in previous years, owing to various causes, and a small addition to the Library grant has been asked for. The expenditure for books in the Library has been managed with some degree of economy, and the grant has been increased but once in five and twenty years.

The problem of providing increased space in the Library still presses for solution. The Librarians have the honour to remind Parliament that for many years past, this subject has been presented for consideration in their annual report. The plans prepared in 1904 by the Chief Architect were accepted by the Librarians as highly satisfactory, and looked on favourably by the Joint Committee; but, owing to various causes, nothing has been done regarding them. No proposition that has since been made seems to the Librarians to be as acceptable as the plans of 1904, which are simple, feasible and economical; and which admitted of control of the Library without any increase of staff.

The statistics of the Library will be presented to the Committee at its first meeting.

The Annual Catalogue of Accessions is in the hands of the Printers, and will be distributed at an early date.

The list of donations is hereto annexed.

All of which is respectfully submitted.

And then The House having continued to sit till twenty minutes after Four of the Clock, P.M., adjourned till Monday next.

Mr. Brodeur, a Member of the King's Privy Council, by command of His Excellency the Governor General,—Laid before the House, Copy of Order in Council approved by His Excellency the Governor General in Council on the 21st January, 1911, relating to changes in the Fishery Regulations, under Section 54 of "The Fisheries Act," Chapter 45 of the Revised Statutes of Canada, 1906, in conformity to the agreement made at the Conference held at Washington, January, 1911; also, despatch from Mr. Bryce to Lord Grey. ## STATEMENT BY MR. SPEAKER.

A question of order was raised yesterday upon the introduction of a Bill by the Honourable Member for Rainy River, intituled: "An Act to amend the Electricity and Fluid Exportation Act." The Honourable Member for East Grey questioned the propriety of proceeding with the measure without the principle of the same having been submitted to a Committee of the Whole House, by virtue of Rule No. 50. This Rule reads as follows:—

"50. No Bill relating to trade or the alteration of the laws concerning trade, is to be brought into the House, until the proposition shall have been first considered in a Committee of the Whole House, and agreed upon by the House."

Not having had an opportunity of perusing the Bill itself, I could only judge from the observations made by the Honourable Member for Rainy River, in introducing this Bill, as to its scope and intent. In the meantime, I requested that the Bill should stand until I could look into the point raised.

The Honourable Member for Rainy River, having submitted his draft of the Bill to me, I find that it amends Chapter 16 of the Statutes of 1907, in some material particulars; that it relates to trade, in electric and mechanical power, is manifest. Clause 4 of the Bill repeals Section 5 of the original Act, and provides regulations as to methods of distribution and of the hours of service. Sub-section 3 of Clause 4 makes it compulsory for licenses, under the Act, to supply power upon the request of any municipal corporation or of any other bona fide applicant for such power.

I, therefore, rule that the said Bill does relate to trade, as contemplated by Rule 50, and can only be introduced after having been first considered in Committee of the Whole House.

Sir Wilfrid Laurier, a Member of the King's Privy Council, presented,—Return to an Order of the House of the 7th December, 1910, showing the names, respective ages, when appointed, and pay received, by the Sessional Employees of the House of Commons. (*Sessional Papers, No. 103.*)

On motion of Mr. Schaffner, seconded by Mr. Herron,

Ordered, That there be laid before this House, a statement showing:—

1. How much wheat was exported from Canada, for the crop years ended August 31st, 1908, 1909 and 1910.
2. How much wheat was exported from Canada through United States ports, during 1908, 1909 and 1910, naming said ports, and amount exported from each port.
3. How many terminal grain elevators are there at Port Arthur and Fort William, and what is the name of each.
4. How much grain was shipped through each elevator at Port Arthur and Fort William, during each year 1908, 1909 and 1910, and what are the names of the elevators, respectively.
5. How much wheat was exported from Canada, during each crop year 1908, 1909 and 1910, not passing through the terminal elevators at Port Arthur and Fort William.
6. How many men are employed by the Government in connection with the terminal elevators at Port Arthur and Fort William, and what is the total salary paid the men per year.

On motion of Mr. Lachance, seconded by Mr. Lanctôt (Richelieu),

Ordered, That there be laid before this House, a Return showing the full names of the permanent and temporary employees appointed at Quebec, since the first of January, 1905, in the following Departments: Post Office, Customs, Inland Revenue and Public Works; the age and place of residence of each of these employees, at the

time of their appointment, the dates and nature of changes, promotions or increases of salary granted them since their appointment.

On motion of Mr. Northrup, seconded by Mr. Wilson (Lennox and Addington),

Ordered, That there be laid before this House, a copy of all correspondence, documents and papers relating to the late strike on the Grand Trunk Railway, between the said Railway and the striking conductors and trainmen, or between either and any person or persons authorized or professing to act for either, or between the Government or any Minister or Deputy Minister, or any one on his behalf, and either of said parties or any one professing to act on behalf of either, since the 29th day of November, A.D. 1910, and particularly all documents, papers, correspondence and agreements relating to the reinstatement of any of the men who had been on strike, and the appointment of Judge Barron.

Mr. Martin (Regina) moved, seconded by Mr. MacNutt, That in the opinion of this House, in view of the investigations recently made by the Government into the conditions existing in the Terminal Elevators at Fort William and Port Arthur, and in view of the disclosures, as a result of such investigations, it is in the interests of the Western grain producers and of Canada, generally, that such measures be adopted by the Government as will more effectually prevent the improper admixture of grain delivered to the several terminal and transfer elevators through which the grain of the Western Provinces may pass.

And a Debate arising thereupon;

And it being Six o'Clock, P.M., Mr. Speaker declared The House adjourned till To-morrow, at Three of the Clock P.M.

Thursday, 26th January, 1911.

Mr. Lancaster moved, seconded by Mr. Blain, That a humble Address be presented to His Most Gracious Majesty the King, as follows:—

**MOST GRACIOUS MAJESTY :**

We, your Majesty's dutiful and loyal subjects, the Commons of Canada in Parliament assembled, beg leave most respectfully to represent—

That in the year 1867 by Act of your Imperial Parliament, commonly known as the British North America Act, the then existing Provinces of Canada, Nova Scotia and New Brunswick were federally united and formed into one Dominion, under the

name of Canada, and the constitution of the legislative authority of such Dominion provided for and the nature of its executive government declared, and since the said Act other Provinces in British North America have also been federally united to the said Dominion and now form part thereof, with representation in this House of Commons, pursuant to the provisions providing therefor in the said British North America Act and amending and other Acts, subsequently enacted;

That by the said British North America Act, the executive government and authority of and over Canada is declared to continue and be vested in Your Majesty and Your Heirs and Successors, Kings and Queens of the United Kingdom of Great Britain and Ireland, and Your Majesty is represented in Canada by a Governor General;

That by the said British North America Act, there is also a council to aid and advise Your Majesty, styled the King's Privy Council for Canada, the Members of which council are from time to time chosen and summoned by Your Majesty's said Governor General and may be from time to time removed by the said Governor General;

That by the said British North America Act, the Parliament of Canada consists of Your Majesty, an upper House, styled the Senate, and the House of Commons, but with powers not to exceed those at the passing of the said Act held and exercised by the Commons House of Parliament of the United Kingdom of Great Britain and Ireland;

That by the said British North America Act, it is also provided that Bills for appropriating any part of the public revenue or for imposing any tax or impost, shall originate in the House of Commons, and that no such Bill or vote, resolution or address for such appropriation or tax or impost shall be adopted or passed that has not been first recommended to that House by message of Your Majesty's said Governor General, in the Session in which such Bill, vote, resolution or address is proposed;

That by the said British North America Act, it is also provided that where any Bill passed by the House of Parliament is presented to Your Majesty's said Governor General for Your Majesty's assent, he shall declare, according to his discretion but subject to the provisions of the said Act and to Your Majesty's instructions, either that he assents thereto, in Your Majesty's name, or that he withholds Your Majesty's assent, or that he reserves the Bill for the signification of Your Majesty's pleasure, and that where he assents to a Bill in Your Majesty's name if Your Majesty in Council within two years after receipt thereof by the Secretary of State, thinks fit to disallow the Act, such disallowance shall annul the Act, and that a Bill, reserved for the signification of Your Majesty's pleasure, shall not have any force unless and until within two years from the day on which it was presented to Your Majesty's said Governor General, for Your Majesty's assent, he signifies to the Houses of Parliament or by proclamation that he has received the assent of Your Majesty in Council;

That by the said British North America Act, legislatures for the various provinces constituting the said Dominion of Canada are also established, each governed by a Lieutenant Governor appointed by Your Majesty's said Governor General in Council for five years, and whose salaries are required to be fixed and provided by the Parliament of the Dominion of Canada, and such Provincial Legislatures are empowered, exclusively, to make laws in relation to a large number of matters and subjects of great importance, subject to disallowance by Your Majesty's said Governor General in Council within one year, but not in any way subject to consent also by the said Senate;

That in regard to all matters and subjects not within the said exclusive power of the said Provincial Legislatures, it is provided by the said British North America Act that all laws to be made by the said Parliament of Canada must be consented to and passed by both the Senate and the House of Commons, before being presented to Your

---

Majesty's said Governor General for assent, and the Members constituting the said Senate are appointed for life and not subject to election or rejection by the people, and the Members of the House of Commons are elected by the people every five years or at any less period at which Your Majesty's said Governor General may dissolve the Parliament;

That, during the forty years since the said British North America Act has been in force, much dissatisfaction has been caused from time to time to Your Majesty's loyal subjects in Canada, by the actions of the Senate in regard to matters dealt with by the House of Commons, and the rejection of laws sought to be made by the people through their representatives in the House of Commons and passed by the House, and by reason of the heavy expense and burden of taxation placed upon the people to provide for the maintenance of that two-fold system of dealing with the making of laws by the Parliament of Canada:

That in view of the many other provisions heretofore referred to, the guarding against and disallowing any ill-advised or improper legislation which might, by any possibility, pass the said House of Commons, and of the aforesaid dissatisfaction of the people and heavy burden of expense involved and of the great advance made in education by the whole people of Canada, since the passing of the said British North America Act, this House is of the opinion that the Senate is no longer required or advisable for the properly carrying on of responsible government in Canada, or safeguarding of Your Majesty's full Rights and Prerogatives; and that the abolition of the said Senate would greatly conduce to the welfare of the Dominion of Canada and promote the interests of the British Empire

We therefore respectfully pray that the said British North America Act be so amended as to provide for the abolition of the said Senate.

And the Question being put on the said motion:—It passed in the Negative.

And then The House having continued to sit till a quarter of an hour after Eleven of the Clock, P.M., adjourned till To-morrow.

Tuesday, 31st January, 1911.

DECISION OF MR. SPEAKER *RE* SENATE AMENDMENTS TO BILL No. 9,  
AN ACT TO AMEND THE INSPECTION AND SALE ACT.

Mr. SPEAKER,—On Monday last when these amendments were first before the House the Honourable Member for Simcoe (Mr. Currie) raised a point of order to the effect that these amendments could not be considered because the Bill at its original introduction into this House had not been preceded by resolution of the Committee of the Whole, as the Bill related to Trade.

At that time I stated to the Honourable Member that his objection was taken too late; also, that the Bill itself was not before the House but only the Senate amendments.

At the suggestion of some Honourable Member I allowed the matter to stand until to-day.

After careful consideration of the subject, I see no reason to change my opinion. The time at which an objection is taken to any procedure of the House has always been considered as of importance, and some objections which might have very fairly prevailed, had they been taken at the proper time, have failed on account of delay. There is no special precedent upon this particular case, but there are abundant precedents to the effect that an objection to procedure must be taken promptly and before the matter has passed to a stage at which the objection would be out of place. This, I consider, to have been the case in the present instance, the Bill having passed its three readings and Committee of the Whole in the House of Commons before this point was raised. Any other ruling would lead to very undesirable complications.

It was formerly decided by Mr. Speaker Blanchet, as far back as 1880, after discussion in which the Speaker was warmly supported by Sir John A. Macdonald, that when Senate amendments were before the House these amendments only could be discussed. See Bourinot, 3rd Edition, page 676.

On motion of Mr. Barnard, seconded by Mr. Lake,

Ordered, That there be laid before this House, a Return, showing:—1. The nature of the subsidy which has been granted to the Vancouver Dry Dock Company.

2. The nature of payment of interest or of a guarantee of such subsidy.

On motion of Mr. Warburton, seconded by Mr. Richards,

Ordered, That there be laid before this House, a copy of all reports, correspondence and documents, not already brought down, including report of survey made in 1909 of the harbour of Cape John and Tatamagouche Bay, in the Counties of Pictou and Colchester, in the Province of Nova Scotia, relating to the route of the winter steamers between Prince Edward Island and the Mainland of Canada, and suggesting or recommending a change or changes on such route, and an increase in the number of trips, daily, of such winter steamers; also, a copy of all similar papers, not already brought down, relating to the route of the summer mail steamers between Charlottetown and the Mainland of Canada, and suggesting a change in that route, and an increase in the number of trips, daily; and also, with regard to connecting such suggested route with a point on the Intercolonial Railway; also, for a copy of all similar papers, if any, relating to or suggesting the route between Cape Traverse, in the Prince Edward Island, and Cape Tormentine, in the Mainland, as a route for the winter and summer steamers; also, for a copy of all reports, papers and correspondence relating to additional or improved aids to navigation of the Harbour of Charlottetown and entrance thereto, and in Tatamagouche Bay and harbour.

Mr. Miller moved, seconded by Mr. Hunt, That, whereas it is stated that on Canadian railroads last year one trainman in every 199 was killed and one in every 33 was injured, in the opinion of this House, it is the duty of the Government to

cause to be made a most thorough investigation as to the facts and conditions, as a result of which some means may be devised for the better protection of railway employees, and of preventing so great a loss of life and so great and frequent accidental injury.

And a Debate arising thereupon, the said Debate was, on motion of Sir Wilfrid Laurier, seconded by Sir Allen Aylesworth, adjourned.

On motion of Mr. Jameson, seconded by Mr. Perley,

Ordered, That there be laid before this House, a copy of all telegrams, letters, papers and documents in any Department of the Government, or elsewhere, under their control, relating to the payment of a sum of five hundred dollars, or any sum, to assist in the construction of a bait freezer, situated at Barrington Passage, Nova Scotia, and of all letters, telegrams, papers and documents relating to any proceedings taken or proposed in connection therewith.

On motion of Mr. Blain, seconded by Mr. Perley,

Ordered, That there be laid before this House, a copy of all applications made by employees of the North Atlantic Collieries for a Conciliation Board within the past six months, and of all letters, telegrams, documents, statements and other papers and documents touching the same, or having any relation thereto, including all correspondence received by the Government or any Department of the Government, from the said North Atlantic Collieries, or from the employees thereof, touching the matter aforesaid.

Ordered, That there be laid before this House, a copy of all letters, correspondence and agreements between the City of Ottawa Municipal Electric Light Company and the Department of Public Works, relating to the lighting of public buildings in the City of Ottawa, and between the Department of Public Works and the Ottawa Electric Light Company.

Ordered, That there be laid before this House, a copy of all memorials, reports, resolutions of Boards of Trade and of other bodies, and of all correspondence in the hands of the Government, both for and against the continuance of granting bounties to the steel and iron industries in Canada, covering a period of the past fifteen years.

On motion of Mr. Blain, seconded by Mr. Perley,

Ordered, That there be laid before this House, a copy of the application by or on behalf of the Glace Bay Bait Association, Glace Bay, Nova Scotia, for moneys in connection with the Cold Storage building for the storage of Bait, at Glace Bay, Nova Scotia; also, a copy of all correspondence between the said Bait Association or any one on its behalf, and the Government, any Department of the Government, or any one on behalf of the Government, or any of its Departments.

On motion of Mr. Perley, seconded by Mr. Jameson,

Resolved, That an humble Address be presented to His Excellency the Governor General, praying His Excellency to cause to be laid before this House, a copy of all correspondence, recommendations, Orders in Council, or other documents relating to the case of R. E. Curran, a railway mail clerk, who was fatally injured in an accident at Owen Sound, on the 29th May, 1908, and with regard to which application was made for a compassionate grant or allowance to his heirs or family.

Ordered, That the said Address be presented to His Excellency by such Members of this House as are of the King's Privy Council.

---

On motion of Mr. Turcotte (Quebec County), seconded by Mr. Parent,

Resolved, That an humble Address be presented to His Excellency the Governor General, praying His Excellency to cause to be laid before this House, a copy of the correspondence, memoranda and documents of every nature exchanged between the Governments of Canada and Great Britain, showing the part taken by the latter, in the negotiations relating to the recent Customs Convention between the Government of Canada and that of the United States; a copy of commissions, credentials and other documents of every nature giving official authority to certain persons, as well on the part of Canada as on the part of Great Britain, to negotiate the recent Customs Convention of the 21st January, 1911, between Canada and the United States; and a copy of instructions of every nature, given by the Government of Canada or that of Great Britain, to the persons officially authorized to act in their name for the negotiations of this Customs Convention.

Ordered, That the said Address be presented to His Excellency by such Members of this House as are of the King's Privy Council.

The Order of the Day being read, for the second reading of the Bill to amend the Railway Act.

The Bill was accordingly read a second time; and committed to a Committee of the Whole House.

Resolved, That this House do immediately resolve itself into the said Committee.

The House accordingly resolved itself into the said Committee, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. McIntyre reported, That the Committee had gone through the Bill and made Amendments thereunto.

Ordered, That the Bill, as amended in the Committee, be now taken into consideration.

The House accordingly proceeded to take the Bill into consideration.

Ordered, That the Bill be read the third time at the next sitting of the House.

And then The House, having continued to sit till a quarter of an hour before Twelve of the Clock, P.M., adjourned till To-morrow.

CHARLES MARCIL,  
*Speaker of the House of Commons.*

February 20th, 1911.

SIR,—The permanent position of Assistant Clerk of the Committee on Agriculture and Colonization has been vacant since the promotion of the former Assistant Clerk (Mr. A. E. Horton) to the position of Clerk.

Mr. Arthur S. Glasier, a Sessional Clerk of the House of Commons for the past five years, has almost continuously acted as Assistant Clerk of this Committee, and on several occasions, during the absence of the Clerk, has discharged the duties of that position to the thorough satisfaction of the Committee and of the authorities of the House.

Mr. Glasier has special qualifications for such work, having been himself a practical agriculturist and having had a long experience in Parliamentary work.

The knowledge and ability requisite for a proper discharge of the duties of this position are, from an agricultural standpoint, partly professional, partly technical and otherwise peculiar.

Mr. Glasier has presented a Certificate of Qualification from the Civil Service Commission, copy of which is enclosed.

The position is classified in sub-division B of the Second Division, and I recommend Mr. Glasier's appointment to the same.

I have the honour to be,

Sir,

Your Obedient Servant,

THOS. B. FLINT,

*Clerk of the House of Commons.*

The Honourable,  
The Speaker of the House of Commons.

## CIVIL SERVICE COMMISSION OF CANADA.

OTTAWA.

The Civil Service Commissioners have had under consideration an application from the Speaker of the House of Commons for the issue of a Certificate of Qualification, under the provisions of Section 21 of the Civil Service Amendment Act, 1908, in favour of Mr. Arthur Glasier, whom it is proposed to appoint to the position of Assistant Clerk to the Committee on Agriculture and Colonization, with the rank of an officer in Sub-division B of the Second Division, it having been reported that the duties attached to such position are of a peculiar character. Having made a careful enquiry into Mr. Glasier's qualifications and experience, and having satisfied themselves that he possesses the requisite knowledge and ability, and is fully competent to discharge the duties of the position in question,

Now, therefore, this is to certify, pursuant to the provisions of Section 21 of the Civil Service Amendment Act, 1908, that, in their opinion, Mr. Arthur Glasier possesses the requisite knowledge and ability, and is duly qualified as to health, character and habits for appointment to the position of Assistant Clerk to the Committee on Agriculture and Colonization, with the rank of an officer in Sub-division B of the Second Division, on the Staff of the House of Commons.

Dated at the office of the Civil Service Commission of Canada this 16th day of February, 1911.

ADAM SHORTT,  
M. G. LAROCHELLE,  
*Commissioners.*

Mr. Speaker informed The House, That he had directed the Clerk of the House to lay upon the Table his recommendation and other papers in connection with the assistant clerkship in the office of the Clerk of the Crown in Chancery, in the Organization of the Staff of the House of Commons, be raised from Sub-division A of the Third Division to Sub-division B of the Second Division, and that the incumbent of this office (Mr. Jules Castonguay) be promoted in grade accordingly, and the same are as follows:—

*The Civil Service Amendment Act, 1908.*

To the Honourable The House of Commons.

I have the honour to recommend that the assistant clerkship in the office of the Clerk of the Crown in Chancery, in the Organization of the Staff of the House of Commons, be raised from the Sub-division A of the Third Division to the Sub-division B of the Second Division, and that the incumbent of this office (Mr. Jules Castonguay) be promoted in grade accordingly.

Hereto is appended the report and recommendation of the Clerk of the House on this subject.

CHARLES MARCIL,  
*Speaker of the House of Commons.*

20th February, 1911.

FEBRUARY 20th, 1911.

SIR,—In the Organization and Classification of the Staff of the House of Commons, adopted 10th May, 1909, the Assistant in the Office of the Clerk of the Crown in Chancery was graded in Sub-division A of the Third Division.

It was intended before the Civil Service Amendment Act came into force to place this clerkship in the grade which would have placed the incumbent in Sub-division B of the Second Division.

As a matter of fact, Mr. Castonguay was appointed as a Second Class Clerk in the Office of the Clerk of the Crown in Chancery, just after that Office was transferred to the House of Commons and just before the Classification above alluded to was made.

By an oversight, Mr. Castonguay was erroneously classified as a Junior Second Class Clerk, and, before this error could be rectified, the Civil Service Amendment Act came into force and the clerkship was classified as in Sub-division A of the Third Division.

In order to rectify an obvious mistake and to do justice to the incumbent of this office, I recommend that the said Assistant Clerkship be graded as in Sub-division B of the Second Division, and that the Organization of that Branch be amended accordingly, and that Mr. Castonguay, whose duties have been faithfully performed, be promoted to the said grade.

I have the honour to be,

Sir,

Your Obedient Servant,

THOS B. FLINT,

*Clerk of the House of Commons.*

The Honourable,

The Speaker of the House of Commons.

Mr. Speaker informed the House, That he had directed the Clerk of the House to lay on the Table his recommendation, &c., in connection with the Organization of the Staff of the House of Commons, Sergeant-at-Arms Department, and that the same be amended by the addition of the names of H. Pinard and George Gibson, House Carpenters, and the same are as follows:—

*The Civil Service Amendment Act, 1908.*

To the Honourable The House of Commons.

I have the honour to recommend that the Organization of the Staff of the House of Commons, Sergeant-at-Arms Department, be amended by the addition of the names of H. Pinard and George Gibson, House Carpenters, as recommended by the report of the Clerk of the House of Commons, copy of which is herein appended.

CHARLES MARCIL,

*Speaker of the House of Commons.*

20th February, 1911.

FEBRUARY 20th, 1911.

SIR,—When the Staff of the House of Commons was organized, under the Civil Service Amendment Act, the two House Carpenters, H. Pinard (appointed in 1904), and George Gibson (appointed in 1908), were entirely overlooked, and it is necessary that they should be placed in the Sergeant-at-Arms Department, in order to legalize the payment of their salaries. They have been classed on the Pay-list as Permanent Messengers. The Auditor General calls my attention to the fact that, as Messengers, they are not authorized by the said Act. The House of Commons has always had attached to the Sergeant-at-Arms Department two Carpenters whose services are in constant requisition and whose positions are of a permanent character.

I, therefore, recommend that the Organization of the Sergeant-at-Arms Department of the House of Commons be amended by adding the names of these two Carpenters. This involves no change of a financial nature, as the amount of their pay-

ment is not changed, as hitherto authorized by the Estimates. Their position merely requires the legalization which I hereby recommend.

I have the honour to be,

Sir,

Your Obedient Servant,

THEOS B. FLINT,

*Clerk of the House of Commons.*

The Honourable,

The Speaker of the House of Commons.

Mr. Brodeur, a Member of the King's Privy Council, presented,—Return to an Order of the House of the 30th January, 1911, showing the total quantity of coal delivered to ship at Pictou, in each year during which the S.S. *Minto* has been engaged in the winter service, between Prince Edward Island and Nova Scotia, and the cost thereof.

Mr. Pugsley, a Member of the King's Privy Council, laid before the House.—Progress Report Ottawa River Storage, for the fiscal year 1909-10 (Supplementing investigations, in regard to Georgian Bay Ship Canal project). (*Sessional Papers, No. 19a.*)

Mr. Blondin, Member for the Electoral District of Champlain, made the following statement from his place in the House:—

I, Pierre Edouard Blondin, a Member of Parliament for the electoral district of Champlain, in the Province of Quebec, Dominion of Canada, declare that I am credibly informed, and I believe that I can establish by satisfactory evidence:—

That in the course of the years 1908, 1909 and 1910, irregularities, abuses, frauds, malversations and robberies have been committed in the shops and stores of the Government of Canada, at St. Joseph de Sorel and in the City of Sorel, in the electoral district of Richelieu;

That barrels and tins of paint and other goods of this nature have been illegally and fraudulently taken and carried away from the said stores and shops and transported to the house of Mr. Adelard Lanctôt, then and now a Member of the House of Commons of Canada, for the electoral district of Richelieu, which house was then being built on George Street, at Sorel above mentioned, and ready to be painted.

That with these goods and paint, paint works, decoration and varnish works, have been done by the employees of the Government of Canada, under the supervision of the painters' foreman employed by said Government at the said place, at the Government's

expense and during the hours supposed to be devoted to the Government, and for which said employees were paid by the Government, these men registering each day as if they had really worked for the Government, and this during weeks and months; the materials and time, thus furnished, are valued at about one thousand or twelve hundred dollars;

That said goods were so fraudulently appropriated to, and said work so fraudulently done at the expense of the Government of Canada, for the benefit of the said Adelard Lanctôt, then and now a Member of the House as aforesaid, with his knowledge, assent and approval, the said Adelard Lanctôt abusively and fraudulently profiting at the public expense and to the public detriment, by his position as Member of the House;

I found the belief I have just expressed upon affidavits which I desire to read and produce in support of the motion I am about to make.

Mr. Blondin then moved, seconded by Mr. Nantel, That the declarations and matters above set forth be referred to the Select Standing Committee on Privileges and Elections of this House, to enquire fully into the same, with power to send for persons, papers, records and such articles as may be necessary for such investigation, and to examine witnesses upon oath or affirmation, and that your Committee do report in full the evidence taken before them and all their proceedings on the reference and the result of their enquiries.

Mr. Adelard Lanctôt, Member for the electoral district of Richelieu, read the following statement from his place in the House:—

I must say that I have no objection whatever to the motion of the Member for Champlain asking that the charges he prefers against me as a Member of this House be referred for investigation to the Committee on Privileges and Elections. I am glad that he has brought this matter to the attention of the House, and I court the fullest and most complete investigation of it.

The facts are simply these: During the month of June last I was building a house in Sorel, and when it was ready to be painted, I had at the time to leave Sorel very frequently to go to Saranac Lake, where my wife was lying ill. Not having sufficient time to bring painters to Sorel from any outside place, and knowing that none could be had in the town of Sorel, except at the Marine Department shops, and the Richelieu and Ontario shops, I went to the Marine Department to ask the superintendent, Mr. Papineau, to send me a few painters to finish my work. Mr. Papineau being absent, I spoke to Mr. Champagne, the timekeeper, and requested him to send me painters when he could spare them, without delaying the work of the Department, and I told him to keep an exact, accurate and separate account of the time of these men while working at my house; at the same time I informed Mr. Pagé, the foreman, that I had asked for painters from Mr. Champagne and that Mr. Champagne would keep the time of the men while they were working at my place. I told Mr. Pagé to get all the necessary materials from Cyrille Labelle and Co., with whom I was dealing and where I had an account current for supplies used in my building.

I also explained to Mr. Pagé that I was leaving for Saranac Lake to join my wife and that I relied upon him to see that the men did their work properly, requesting him at the same time to render me the accounts as the work was proceeding, that I might pay them, to avoid any misunderstanding in the matter. Men were sent at various times between the months of July and November to do this work, and during that period, when I asked at different times that the account be rendered to me, I was told that it would be more simple and would involve less work to render the account when the work was finished. The men did the work and when the same was finished, the bill was rendered to me by Mr. Champagne for the Department and I immediately paid it in full upon its production.

Some of the paint, varnish and other materials used, were obtained from the shops of the Department of Marine and Fisheries. An accurate account of such

materials was kept and goods of the same quality and to the same quantity were purchased to replace the same and the account for the goods so purchased, together with costs of carriage to Sorel, was paid by me and goods returned to the Department immediately.

And the Question being put on the proposed motion of Mr. Blondin: It was resolved in the Affirmative.

The matters set forth as above were accordingly referred to the Select Standing Committee on Privileges and Elections.

The Speaker acquainted The House, That a Message had been brought from the Senate by their Clerk, as followeth:—

*(In the Committee.)*

Resolved, That, whereas by legislation enacted at the Session thereof held in the year A.D. 1910, the Legislature of the Province of New Brunswick authorized and empowered the Lieutenant Governor in Council for the said Province to guarantee the principal and interest of the bonds of any Railway Company which would build

a line of railway from a point on the line of the National Transcontinental Railway, at Grand Falls, in the County of Victoria, to the City of St. John, in the said Province of New Brunswick, a distance of about two hundred and twenty miles, to the extent of twenty-five thousand dollars (\$25,000) per mile, upon certain conditions therein set forth, one of such conditions being that no such agreement should be entered into with any company or corporation for the construction of the said line of railway or for the guaranteeing of the said bonds, unless and until the Parliament of Canada should enact legislation authorizing the entering by the Government of Canada into an agreement with such company or with the Government of the Province of New Brunswick, for the leasing of the said line of railway when completed, with its appurtenances and rolling stock, and for the operation, equipment, maintenance, upkeep and repair, by the said Government of Canada, as a part of the Government railway system of Canada, for a period of ninety-nine years, and for the payment, by the Government of Canada, to the said Province of New Brunswick, or the Government thereof, each year during the said term of ninety-nine years, of forty per centum per annum of the gross earnings of the said railway, as or in the nature of rental therefor; the amount of such rental to be applied in payment of the interest of the bonds so to be guaranteed and the surplus, if any, to be paid to the said Company;

Now, therefore, it is expedient that His Excellency the Governor in Council be authorized to enter into a contract with any such railroad company and the Government of the Province of New Brunswick, as aforesaid, for the leasing of the said line of railway with its appurtenances and rolling stock, when completed and equipped with initial rolling stock, and for the operation, including the supply of additional rolling stock from time to time sufficient to handle the traffic as it may arise, maintenance, upkeep and repair by the said Government of Canada, as a part of the Government railway system of Canada, for a period of ninety-nine years, and for the payment by the Government of Canada to the said Province of New Brunswick, or the said company, each year during the said term of ninety-nine years, of the forty per centum per annum of the gross earnings of the said railway, as or in the nature of rental therefor;

Provided, however, that the said contract shall be entered into only upon the condition that the said railway be constructed upon plans and specifications to be approved of by the Governor in Council, upon the recommendation of the Minister of Railways and Canals, and shall be up to the general standard of the said National Transcontinental Railway through the said Province;

Provided further, that His Excellency the Governor in Council shall be authorized to enter into a contract, as aforesaid, for the operation of the said road in sections, when completed, and equipped as follows:—

a line of railway, from a point on the line of the National Transcontinental Railway, at Grand Falls, in the County of Victoria, to the City of St. John, in the said Province of New Brunswick, a distance of about two hundred and twenty miles, to the extent of twenty-five thousand dollars (\$25,000) per mile, upon certain conditions therein set forth, one of such conditions being that no such agreement should be entered into with any company or corporation for the construction of the said line of railway or for the guaranteeing of the said bonds, unless and until the Parliament of Canada should enact legislation authorizing the entering by the Government of Canada into an agreement with such company or with the Government of the Province of New Brunswick, for the leasing of the said line of railway, when completed, with its appurtenances and rolling stock, and for the operation, equipment, maintenance, upkeep and repair, by the said Government of Canada, as a part of the Government railway system of Canada, for a period of ninety-nine years, and for the payment by the Government of Canada, to the said Province of New Brunswick, or the Government thereof, each year during the said term of ninety-nine years, of forty per centum per annum of the gross earnings of the said railway, as or in the nature of rental therefor; the amount of such rental to be applied in payment of the interest of the bonds, so to be guaranteed, and the surplus, if any, to be paid to the said Company;

Provided, however, that the said contract shall be entered into only upon the condition that the said railway be constructed upon plans and specifications to be approved of by the Governor in Council, upon the recommendation of the Minister of Railways and Canals, and shall be up to the general standard of the said National Transcontinental Railway through the said Province;

Provided further, that His Excellency the Governor in Council shall be authorized to enter into a contract, as aforesaid, for the operation of the said road in sections, when completed and equipped, as follows:—

PRAYERS.

Mr. German, from the Select Standing Committee on Privileges and Elections, to which were referred certain charges preferred by Mr. Pierre Blondin, Member for Champlain, against Mr. Adelard Lanctôt, Member for Richelieu, presented to the House, the Third Report of the said Committee, which is as follows:—

Your Committee finds that the charges aforesaid have not been established but have been altogether disproved.

Your Committee finds the facts to be that about the end of May, 1910, Mr. Lanctôt, in the absence of Mr. L. G. Papineau, the Director of the Government Shipyard at Sorel, applied to Mr. Oscar Champagne, Timekeeper of the employees there, to be allowed to have some of the men so employed do some of the work of painting and glazing at a house Mr. Lanctôt was building in the town. Mr. Champagne assented, and during the months of June, July, August, September, October and November, 1910, some ten or eleven different workmen, in the employment of the Government did, in all, 217 days work of this character at Mr. Lanctôt's house. In September, four other men, also in the employment of the Government, similarly did six days work as labourers at, or in connection with, Mr. Lanctôt's premises. It was agreed that Mr. Lanctôt should pay the amount the men were receiving from the Government, and at different times while the work was going on at his house Mr. Lanctôt offered to pay the wages to the men so employed, but Mr. Champagne preferred that payment should not be made till the work was finished. Mr. J. B. Pagé, Government Foreman of painters at Sorel, kept a record of each day's work which was done for Mr. Lanctôt by the Government employees, making his entries each evening and from this record an account was made up by the timekeeper, Mr. Champagne, and sent to Mr. Lanctôt by mail, on the 21st November, 1910. This account shows Mr. Lanctôt indebted to the Department of Marine and Fisheries of Canada for 223 day's labour, charged at the rate of wages each workman had been paid by the Government, and amounting to \$375.62. On receiving this account, Mr. Lanctôt paid it immediately by cheque for the amount drawn payable to the Department of Marine and Fisheries or order.

During the course of the work, some material consisting of paint, oil, varnish and putty belonging to the Government was, at Mr. Lanctôt's request, sent to his house and used there. In asking for this material Mr. Lanctôt had promised to replace it later by an equal quantity of like material of equal quality. In setting aside this material for Mr. Lanctôt before sending it to him, Mr. Pagé weighed or measured the goods and kept a note of the quantity. In December an equal, or in some cases a slightly greater quantity of the like goods was obtained by Mr. Papineau, the Director of the Shipyard, from the Mount Royal Colour and Varnish Company, of Montreal, and received into stock at Sorel, without charge to the Government, payment for the same having been made to the company by Mr. Papineau, and Mr. Lanctôt recouped to Mr. Papineau in cash the amount so paid to the company, together with the charges for carriage of the goods to Sorel.

In the opinion of Your Committee, the fair and reasonable value of the goods so used, and of the work so done at Mr. Lanctôt's house does not exceed the amounts paid by Mr. Lanctôt therefor.

Your Committee feel, in view of the very serious nature of the charges made, that they should express an opinion on the propriety of Mr. Blondin making the charges in the manner he did. Your Committee do not wish to state that Mr. Blondin did not believe there was truth in the allegations, or that he did not act from a bona fide belief in their truthfulness, but Your Committee think that before making so serious a charge against an honourable Member of the House of Commons, he should have made some independent enquiry to verify the truthfulness of the charges made and which he apparently did not do. The Minister of Marine was called as a witness. His evidence as to this is on page 189 where he says he had information that no fraud had been committed and that all labour supplied by the shipyards had been paid for and all material supplied had been returned and which information he would have been pleased to give Mr. Blondin had he applied for same.

Your Committee think that if Mr. Blondin had made these enquiries he would not and should not have made these charges.

Your Committee also beg to submit herewith, for the information of the House, the minutes of their proceedings and the evidence taken by them during the enquiry.

*(For the Minutes of Proceedings and Evidence, accompanying this Report, see Appendix to Journals No. 3.)*

THE SENATE,

Tuesday, 25th April, 1911.

Resolved, That a Message be sent to the House of Commons by one of the Masters in Chancery to communicate to that House the following resolutions:—

Resolved, That inasmuch as the accounts and vouchers respecting the expenditures made by the Senate, during the fiscal year ended on the thirty-first day of March, 1910, have been referred to the Committee on Internal Economy and Contingent Accounts, under Rule 103, and are now being considered by that Committee, it is not practicable to furnish them to the House of Commons, as requested by the Message of the twenty-fourth of January from that House.

Resolved, That inasmuch as the accounts and vouchers in question have been submitted to a minute and rigid examination by the Auditor General, whose report thereon is available for reference by all Members of the House of Commons, there does not appear to be any public end to be served by furnishing such accounts and vouchers to that House.

Resolved, That inasmuch as the legislative enactments governing the expenditures of moneys voted to the two Houses of Parliament have been heretofore interpreted as giving to each House full control over the sums voted for its purposes, the Senate is of opinion that the critical examination of the details of disbursements made by either House of Parliament is, in the interest of the harmonious relations of the two Houses, best left to the House by whose order payment is made.

Resolved, That notwithstanding this opinion, the Senate, with a view to promoting economy and efficiency in the administration of the business of Parliament, is prepared to enter into arrangements for the appointment of a joint committee of the two Houses, whose duty it will be to examine into, and report on, the expenditure of such Houses.

*(In the Committee.)*

Whereas, having regard to the growth of population and the rapid development of the production and trade of that portion of Canada, lying west of the Great Lakes, and to the rapidly expanding trade and commerce of the Dominion, generally, it is in the interest of Canada as a whole that another line of railway designed to assist in the direct and economic interchange of traffic between the eastern and western por-

tions of the Dominion, to open up and develop portions of Canada as yet without railway facilities, to promote the internal and foreign trade of Canada, to develop commerce through Canadian ports, and to afford the Government system of railways in Quebec, New Brunswick, Nova Scotia and Prince Edward Island, an interchange of through traffic, should be constructed from the Pacific Ocean to the City of Montreal: and Whereas the projected line of the Canadian Northern Ontario Railway Company, extending from Port Arthur to the City of Montreal, will provide the uncompleted portion of the said through line lying east of the Great Lakes.

It is, therefore, Resolved that it is expedient to provide as follows:—

1. That His Majesty, on behalf of the Dominion of Canada, hereinafter called the Government, may aid and assist the construction and completion by the Canadian Northern Ontario Railway Company (hereinafter called the Company) of a line of railway extending from the City of Montreal in the Province of Quebec to the City of Port Arthur in the Province of Ontario, including the mileage of the line (lying between the said points) already in part constructed by the Company and by the Canadian Northern Quebec Railway Company extending from a point in the Province of Quebec opposite the Town of Hawkesbury to Rideau Junction, west of Ottawa, in the Province of Ontario, by guaranteeing the principal and interest of the bonds, debentures, debenture stock or other securities, hereinafter called the guaranteed securities, of the Company, to the extent of \$35,000 per mile of the said line of railway so aided; interest on the guaranteed securities to be at the rate of  $3\frac{1}{2}$  per cent per annum, payable half yearly; the principal to be payable in fifty years hereafter. The Government may, subject to the provisions of an Act to be passed for such purpose, enter into a contract with the Company fixing the terms and conditions upon which the guarantee is given and of the security to be taken therefor.

2. That the guarantee securities shall be secured by deed of trust by way of mortgage or charge to a trustee or trustees approved by the Governor in Council, granting a first mortgage or charge upon a line of railway extending from Montreal to Port Arthur, excepting the portion, above described, between a point on the Canadian Northern Quebec Railway opposite Hawkesbury and Rideau Junction, about sixty-two and a half miles in length, and about ten and six-tenths miles of the Company's Hutton Branch, south of Sellwood Junction, and the right-of-way, station grounds, and other real estate, and interests therein, buildings and other structures and improvements, rolling stock and equipment (subject only to equipment bonds), plant, machinery, tools, supplies, materials and other personal properties, present and future, acquired and to be acquired for the purposes of the said line, and in connection with the operating, repairing and maintaining thereof, and the tolls, incomes, and revenues of the Company arising and to arise therefrom, and the rights, privileges, franchises, and powers of the Company now or hereafter held with respect to and in connection with the said line, and the operation, maintenance and repair thereof, such deed of trust shall also grant a mortgage or charge upon the said ten miles of the Company's Hutton branch, and upon the properties of the Company thereto appertaining, ranking after the mortgages and charges created by two Trust Deeds made by the Company to the British Empire Trust Company, Limited, and National Trust Company, Limited, dated 12th July, 1906, and 24th June, 1908, respectively, and after the thirty years  $3\frac{1}{2}$  per cent debenture stock issued under such Trust Deeds, in so far as such debenture stock may from time to time be unexchanged and outstanding and such Deed of Trust shall also grant a first mortgage or charge upon the bonds or debenture stock deposited under the next following paragraph.

3. That the Company shall deposit with the trustee or trustees of the said Deed of Trust, bonds or debenture stock issued under the Trust Deed dated 28th June, 1909, made between the Company and the British Empire Trust Company, Limited, and National Trust Company, Limited, to an amount equal to \$35,000 per mile of the

said line between a point on the Canadian Northern Quebec Railway opposite Hawkesbury and Rideau Junction and to \$35,000 per mile of the said ten and six-tenths miles of the Hutton Branch (being approximately \$2,558,500 of such bonds or debenture stock); and the bonds or debenture stock so deposited shall form part of the mortgaged premises under the Deed of Trust, securing the guaranteed securities; and there may be included in the last mentioned Deed of Trust provisions respecting the interest on the bonds or debenture stock so deposited, and respecting the return to the Company (upon and after the discharge of the said Trust Deeds dated 12th July, 1906, and 24th June, 1908), of the bonds or debenture stock deposited in respect of the said ten and six-tenths miles of the Hutton Branch freed and discharged from the mortgage or charge under the Trust Deed securing the said guaranteed securities.

4. That in the said Deed of Trust there shall also be included a general charge, ranking after and subject to the mortgage or general charge created by the said Trust Deed dated 28th June, 1909 (and subject to the powers of further issue therein reserved or contained) upon the line of railway of the Company extending from the town of Hawkesbury to a point on the Niagara River, and upon the properties of the Company thereunto appertaining.

5. That the kind of securities to be guaranteed hereunder, and the forms thereof, and the form and terms of the Deed of Trust securing them, and the times and manner of the issue of the guaranteed securities, and the disposition of the moneys to be raised thereon by sale, pledge, or otherwise, pending the expenditure of such moneys for the purposes of the line of railway so aided, and the forms and manner of guarantee or guarantees shall be such as the Governor in Council approves, and such terms, provisions and conditions may be included in said Deed of Trust as the Governor in Council deems expedient or necessary.

6. That upon the said guarantee or guarantees being signed by the Minister of Finance or other designated officer the Government shall become liable as guarantor for the payment of the principal and interest of the securities so guaranteed according to the tenor thereof, and such payments shall form a charge upon the Consolidated Revenue Fund; and the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of the Act respecting the guaranteed securities and the Deed of Trust and all matters relating thereto have been complied with.

7. That the line hereby aided shall be constructed and completed according to the following specifications:—Bridges over rivers and large streams are to be of concrete and steel construction and to be built to the classification of the Heavy Standard Specification of the Department of Railways and Canals dated 1908. Bridges of pile or frame trestle may be constructed over small streams which can be taken care of by culverts, such culverts to be constructed within a reasonable time after the line is put in operation, of which time, the Governor in Council shall be the sole judge. The line of railway shall be laid with steel rails, not less than 80 lbs. to the lineal yard—with standard fastenings. The maximum curvature shall not be of less radius than 716 feet and the grades against eastbound traffic shall not exceed five-tenths of one per cent or 26.40 feet per mile, or six-tenths of one per cent, or 31.68 feet per mile, against the westbound traffic, provided that under exceptional conditions, with the consent of the Governor in Council less radius of curvature and heavier grades may be allowed, on the recommendation of the Minister of Railways and Canals and approved by the Chief Engineer, but in no case shall the curvature exceed 573 feet radius or gradient of 52.80 feet per mile.

8. That the decision of the Governor in Council as to the length of the above mentioned lines shall be final.

9. That subject as herein provided, any moneys paid by the Government under any guarantee given in pursuance of any Act founded upon these resolutions, shall be held to be paid in discharge of the liability of the Government and not in discharge of the liability of the Company, under the guaranteed securities or under the Deed

of Trust securing them, and the moneys so paid shall be held to be still secured by the guaranteed securities and Deed of Trust, and the Government shall be subrogated in and to all the rights of the holders of the guaranteed securities, the interest upon or the principal of which has been paid by the Government, and the Government shall, with respect to all moneys so paid, be in all respects in the position of security holders with respect to whose securities default has been made in payment to the extent of the moneys paid by the Government.

10. The Government may, at the request of the Company, out of the Consolidated Revenue Fund, pay all or any portion of the first four half-yearly payments of interest on the guaranteed securities, falling due after the opening for traffic of the whole of the line so aided, but in such case the Government shall not enforce the repayment thereof against the Company under the said Trust Deed, or against the Canadian Northern Railway Company, under its guarantee as provided for in paragraph 12 thereof, until the maturity of the principal of the guaranteed securities pursuant to the terms hereof. The Company shall, however, pending the repayment of the interest so paid by the Government, pay to the Government half-yearly interest on such interest at the rate of three and one-half per cent per annum; and such interest, upon interest, until so paid, shall form a charge upon the mortgaged premises under the said Trust Deed.

11. That the books of the Company shall at all times be open to inspection for and on behalf of the Government by any person named in that behalf by the Governor in Council, or by the Minister of Finance.

12. That the Canadian Northern Railway Company shall, by covenants included in the Deed of Trust referred to in paragraph 2 hereof, or in some other instrument agreed to between the Governor in Council or the Minister of Finance and the Canadian Northern Railway Company, in such form as the Governor in Council approves, guarantee to the Government the due payment, by the Company of the principal and interest of all securities issued and guaranteed by the Government, under the provisions hereof, according to the tenor and effect of such guaranteed securities, respectively, and in accordance with the terms and provisions hereof; and shall also guarantee to the Government the due payment by the Company of the deferred interest, and of the interest upon interest, if any, which may be payable by the Company, under paragraph 10 hereof; and shall further guarantee to the Government the due payment by the Company of all loss or costs which the Government may sustain or be put to in enforcing, after default, the provisions of the said Deed of Trust against the line of railway and premises thereby mortgaged and charged.

13. That it is hereby declared that the aid herein provided for is granted by the Government for the express purpose of encouraging the transportation of goods through Canadian channels. Before such aid is granted the Governor in Council shall require the Canadian Northern Railway Company and the Canadian Northern Ontario Railway Company to enter into an agreement undertaking that all freight originating on the line of the Canadian Northern Railway Company or its branches, or on the line of the Canadian Northern Ontario Railway Company or its branches, not specifically routed otherwise by the shipper, shall, when destined to points in Canada be carried over the Canadian Northern Railway or the Canadian Northern Ontario Railway, or the connections of either, or over any railway within Canadian territory; and that the through rate on export traffic from the point of origin to the point of destination shall at no time be greater via Canadian ports than via United States ports and that all such traffic, not specifically routed otherwise by the shipper, shall be carried to Canadian Ocean ports; and that the Canadian Northern Railway Company and the Canadian Northern Ontario Railway Company shall not, in any matter within their powers, directly or indirectly, advise or encourage the transportation of such freight by routes other than those above provided, but shall, in all respects, in good faith, use their utmost endeavours to fulfil the conditions upon

which public aid is granted, namely,—the development of trade through Canadian channels and Canadian ocean ports.

14. That the Company shall enter into an agreement with the Government to secure or establish or cause to be secured or established, suitable terminals for the Company within the City of Montreal and agreeing on the request of the Government to enter into arrangements with the Intercolonial Railway for the interchange of traffic between the Company and Intercolonial Railway at Montreal, for such period as the Governor in Council may determine and upon such terms as may be agreed upon between the parties, and should the parties fail to agree, terms shall be fixed by the Board of Railway Commissioners for Canada.

15. That in the event of default, and of the consequent acquisition by the Government, or by any railway company other than the Company, of the line hereby aided, neither the Company nor the Canadian Northern Railway Company will oppose any application to the Board of Railway Commissioners for Canada for an order providing for the use by the Government, or by such other railway company, of terminals at Port Arthur or Montreal, owned or controlled by the Company or by the Canadian Northern Railway Company, in so far as such use is reasonably necessary in connection with the operation of the said aided line, and on reasonable terms and compensation to be established by the said Board.
